Parts of an Evergreen Tree

Write the right word next to each number.

Word bank branch cone needles trunk

1 _____ 2 _____

3 _____ 4 _____

Did you know?

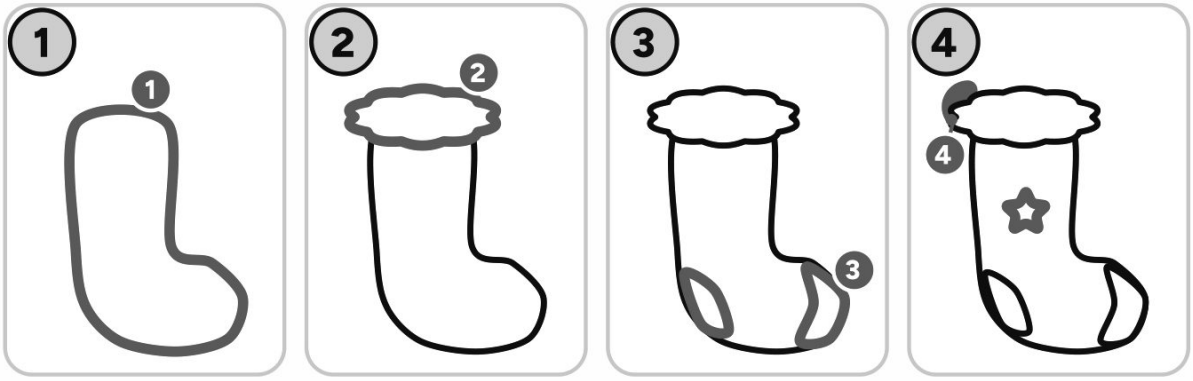

- Evergreen needles are small and compact, which helps them lose less water in cold, dry, windy weather.
- Needles help keep snow from piling up and breaking branches, and the branches can bend under snow instead of snapping.
- Evergreens do lose needles. Older inner needles turn yellow and fall while newer ones stay green.

SNOWY DAY

Snowflake Facts

Read these cool facts with a grown-up!

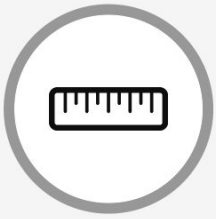

Six arms

Frozen ice has a six-sided crystal shape. That is why snow crystals often grow six arms.

One of a kind

Each snowflake meets its own mix of changes in the cloud, so no two are ever truly identical.

Tiny flakes

Most snowflakes are smaller than half an inch (1.3 cm) across.

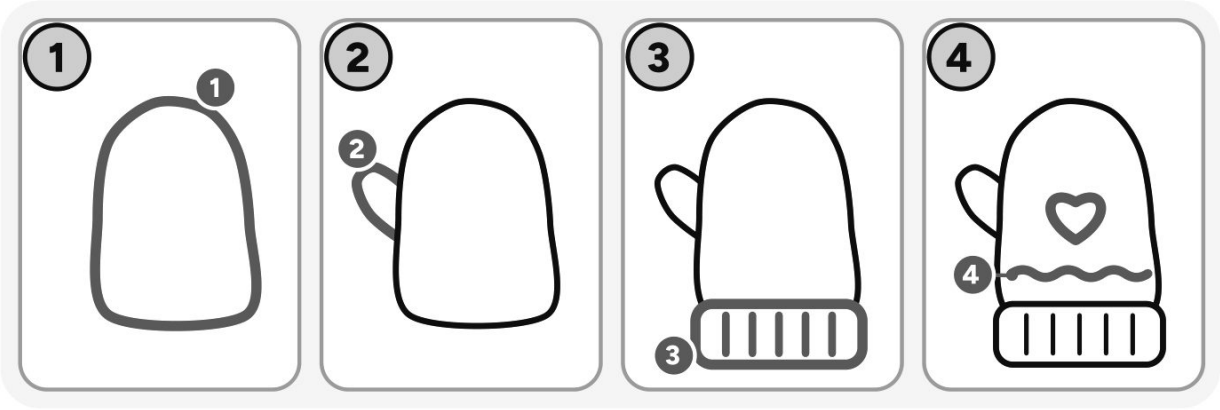

Why so white?

Snow looks white because it reflects most of the sunlight that hits it.
